OUR INSPIRATION

Think about the personal satisfaction you feel when you’re part of a job well done.

Adults with autism and other developmental disabilities enjoy that same sense of pride and accomplishment.

But two-thirds of adults with disabilities are not working -- that’s in a strong economy.

Planting Possibilities provides a nurturing environment where adults with autism and other developmental disabilities can work toward their own goals of building fulfilling lives through meaningful work.

Our mission is to provide fulfilling employment, job skills training, and volunteer opportunities in Lake County, Indiana to adults with autism and other developmental disabilities.

LAKE COUNTY, INDIANA
OUR WORK

Planting Possibilities partners with local businesses to provide supportive working and job training experiences. We provide Vocational Rehabilitation Services as well as Waiver Services related to job training, coaching, and follow-along in Lake County, IN.

We are CARF Accredited for community employment services, job development and community integration.

A greenhouse is a labor-intensive operation, requiring several different skill levels to maintain. We are actively working toward our goal to build a greenhouse that will provide job training and employment opportunities, while adding value for the community.

OUR CLIENTS

"I never had a job. I don't know what I'd be doing if I wasn't here. I love being here!"
